

NEW

REDEFINED & REDESIGNED UNPARALLELED PERFORMANCE CANISTER FILTERS

The All-New 07 series marks the 7th incarnation in nearly 4 decades of Fluval's top selling canister filter family worldwide. Not only does the latest generation incorporate the power and reliability you've come to expect from the leader in aquatic filtration, but it also features several new performance upgrades that make it up to 25% quieter and more robust, energy-efficient, flexible and easier to use than ever before.

Discover more at fluvalaquatics.com

QUIET • POWERFUL • EFFICIENT

eTEC (Efficient Technology) is at the heart of the 07 series. It's a synergistic process where forward-thinking design, cutting edge materials, and state-of-the-art manufacturing processes come together to deliver **powerful pump performance, reduced energy consumption and ultra-quiet operation.**

QUIET

ITALIAN PRECISION-CRAFTED PUMP

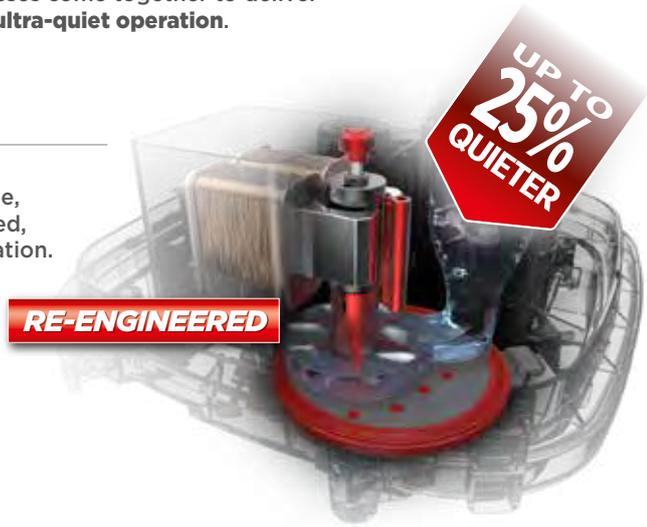

Precise copper wound bobbin, impeller magnet, impeller fan blade, hardened alumina ceramic axle, rubber shaft mount and co-molded, high-flex polymer impeller cover result in up to 25% quieter operation.

RUBBER FEET STABILIZERS

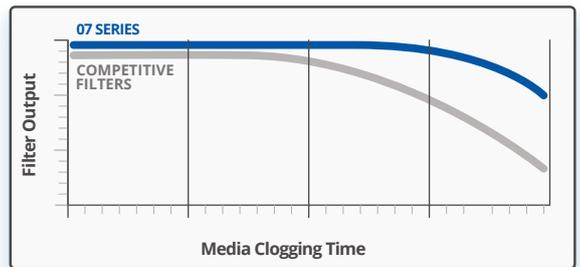

- Redesigned and substantially enlarged
- Offers a more solid base
- Greater vibration-dampening capabilities
- Provides added canister protection

RE-ENGINEERED

POWERFUL

Depending on the model selected, the 07 series generates between 145 - 383 US Gal/h (550-1,450 L/h) of constant pumping power and pressure that endures over time.

Model	Max Water Column Height
107	1.45 m
207	1.45 m
307	1.75 m
407	2.25 m

EFFICIENT

07 filters are big on power, yet small on energy consumption. The 107 and 207 models, for example, draw as little as 10 watts of electrical energy, which is **EQUIVALENT TO A SINGLE HOUSEHOLD LED LIGHTBULB!**

MODEL	PUMP POWER	ENERGY CONSUMPTION	RUNNING COST
107	550 L/H	10 W	0,29 € / KWH = 25,33 € / YEAR
207	780 L/H	10 W	0,29 € / KWH = 25,33 € / YEAR
307	1150 L/H	15 W	0,29 € / KWH = 38,00 € / YEAR
407	1450 L/H	20 W	0,29 € / KWH = 50,67 € / YEAR

FAST ACTION MAINTENANCE

AQUASTOP VALVE

- NEW ergonomic design and raised lip for **smoother operation**
- Extensive plastic ribbing design
- 2x stronger than previous generation

LIFT-LOCK MOTOR HEAD CLAMPS

- Single action dual locking clamps for **quick release & attachment** (half the clamps of most competitive filters)
- NEW fiber-reinforced material

QUICK PRIMER

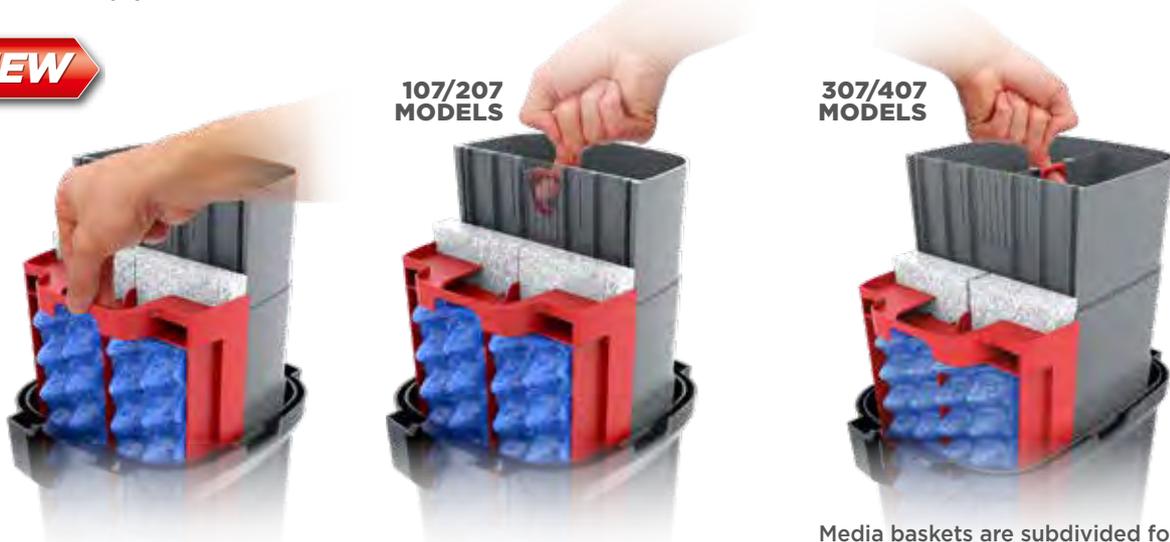

- Redesigned - requires less pumps to engage
- NEW fiber-reinforced priming handle is 7x stronger
- Larger easy grip handle provides **fast, effortless start-ups**
- Better performance with less fuss (can be operated with 2 fingers)

E2-LIFT MEDIA BASKETS

- New center handle allows main media stack to be removed with 1 finger for **quick media access**
- No need to empty canister of water in order to remove baskets - **less mess**

NEW

Media baskets are subdivided for more customizable options.

MAXIMUM FILTRATION CAPACITY

The O7 series utilizes every square inch of available canister volume, and positions media resourcefully to maximize media space in a compact footprint.

VERTICAL PRE-FILTER

- Fluval is the only brand to offer a vertical pre-filter orientation, which provides more surface area and better mechanical filtration
- Independent cartridge with 4 chambers for quick and convenient access

NEW
BIO-FOAM MAX
Rippled pattern creates up to 30% surface area to efficiently trap waste and debris.

UP TO 30% MORE SURFACE AREA

EXPANDED AUTHENTIC MEDIA OFFERING

PRE-FILTER

NEW **BIO-FOAM MAX**
Rippled surface pattern creates 30% more area to efficiently trap waste and debris

BIO-FOAM
Traps waste and debris

BIOLOGICAL

BIO-FOAM+
Boosts beneficial bacteria growth

BIOMAX
Maximum biological surface area

CHEMICAL

CARBON
Removes harmful toxins and odors

AMMONIA REMOVER
Neutralizes toxic ammonia to prevent fish loss

ZEO-CARB
Removes toxins, odors and ammonia

PEAT GRANULES
All-natural way to acidify aquarium water

NEW **PHOSPHATE REMOVER PAD**
Removes excess phosphate for a clean & safe aquarium

NEW **NITRITE REMOVER PAD**
Removes harmful nitrite

NEW **AMMONIA REMOVER PAD**
Neutralizes toxic ammonia to prevent fish loss

MECHANICAL

QUICK-CLEAR
Traps micro particles for sparkling, crystal clear water

PRE-FILTER
Effectively captures solid waste

FOR BEST RESULTS

Always use authentic Fluval media

PRE-FILTER MEDIA PADS

Fluval's unique vertical pre-filter orientation provides more surface area and better mechanical filtration. Media is housed within an independent, re-loadable cartridge for quick and convenient access.

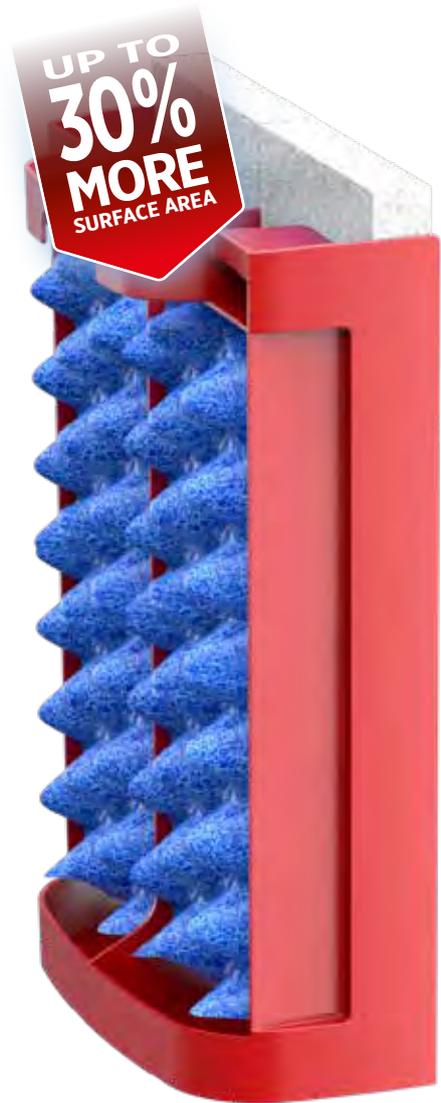

2 IN 1 BIOLOGICAL AND MECHANICAL MEDIA

NEW BIO-FOAM MAX

- Rippled surface pattern offers up to 30% more area to efficiently trap waste and debris
- Prevents premature clogging extending life of subsequent filter media
- Complex foam construction helps maintain even & consistent water flow
- Ideal surface for growth of beneficial, nitrifying bacteria
- Custom fit with no gaps to maximize filtration efficiency
- Convenient 2-pack format
- For use in freshwater and saltwater aquariums

A187 A188 A189

BIO-FOAM

- 2-in-1 media provides biological and mechanical filtration
- Effectively traps waste and debris
- Maximizes Bio-Activity by supporting beneficial bacteria growth
- Maintains consistent water flow
- Convenient 2-pack format
- For use in freshwater and saltwater aquariums

NEW

RESIN INFUSED MEDIA PADS

Designed specifically for the Fluval 07 and canister filters, these pads are composed of a complex interwoven infused resin with embedded phosphate, nitrite or ammonia removers, which effectively trap floating waste and debris for a clean and clear aquarium.

CUSTOM FIT
NO GAPS MEANS
NO WATER BYPASS

VERSATILE

- Maximized space for flexible media configurations
- Depending on amount needed, use individually or collectively stack for rapid control and reduction of heavy spikes
- Mix and match pads for complete protection

NEW

2 IN 1 CHEMICAL AND MECHANICAL MEDIA

PHOSPHATE REMOVER NO PHOSPHATE = NO ALGAE

- Improves water conditions for long lasting cleaner surfaces
- Reduces overall maintenance
- Eliminates cloudy water, odors and discoloration
- Helps to create healthy living conditions

AMMONIA REMOVER HELPS PREVENT FISH LOSS

- Natural ion-exchange media designed to remove toxic ammonia
- Reduces stress on fish
- Ideal for new aquariums and those with higher fish stocks

NITRITE REMOVER HELPS PREVENT FISH LOSS

- Effective at removing and reducing nitrite
- Reduces stress on fish
- Ideal for new aquariums and those with higher fish stocks

DESIGN REFINEMENT SUMMARY

Fluval analyzed extensive consumer feedback and identified their top priorities before embarking on the 07 design: **A) Silent Operation, B) Easy Setup/Maintenance, C) Crystal Clear Water.** While we kept the same DNA of the previous 06 generation (retaining all of the features consumers loved), we created evolutionary refinements that were faster, stronger, better performing and easier to use than before.

FIBER REINFORCED QUICK PRIMER
• EASY TO USE 2 FINGER PUMPING

ERGONOMIC AQUASTOP VALVE & RAISED LIP
• STRONGER - DOES NOT TWIST OR BREAK

FACTORY PRE-ASSEMBLED IMPELLER COVER
• LESS COMPLICATED SET-UP

FIBER REINFORCED LIFT LOCK CLAMPS
• 2 CLAMP QUICK RELEASE

NEW EZ-LIFT MEDIA BASKETS
• QUICK ACCESS & LESS MESS

RE-ENGINEERED, PRECISION-CRAFTED PUMP
• UP TO 25% QUIETER

NEW 30% LARGER PRE-FILTER SURFACE AREA
• FOR BETTER FILTRATION

EXPANDED AUTHENTIC MEDIA OFFERING
• GREAT SALES MARGINS

LARGER VIBRATION-DAMPENING FEET STABILIZERS
• FILTER CASE PROTECTION

FLUVAL AUTHENTIC FILTER MEDIA

YOUR FILTER IS ONLY AS EFFECTIVE AS THE MEDIA YOU USE

HIGH QUALITY

Our laboratories use premium-grade, long-lasting materials and compounds to ensure your aquarium water is healthy and contaminant-free.

MORE CONSISTENT

Fluval operates an extensive quality assurance program to achieve the highest media efficiency and dependability possible.

EXTRA EFFECTIVE

Our media is custom made for your Fluval filter to effectively trap waste and debris. Non-authentic media can lead to irregularities or gaps that reduce performance.

ADDED PROTECTION

Using non-authentic media may pose a threat to the warranty coverage of your filter and its parts. If any piece of equipment is worth investment, it's your filter and filter media.
